1 Invitation

Interested parties are invited to submit a proposal to Tetra Tech International Development Pty Ltd in accordance with the instructions for Implementing Consultant – Strengthening Stakeholder Capacity for Compliance with Updated SPS Regulations in Lao PDR ("**Project Requirements**") for the Regional Trade for Development (RT4D).

2 Background

Tetra Tech International Development Pty Ltd, as the managing contractor of the Regional Trade for Development (RT4D) on behalf of the Australian Government's Department of Foreign Affairs and Trade (DFAT), and New Zealand Government's Ministry of Foreign Affairs and Trade (MFAT), a duly registered Australian company located at Ground Floor 422 King William Street Adelaide SA 5000, Australia, referred to as "Tetra Tech International Development".

The Regional Trade for Development (RT4D) initiative is funded by both the Governments of Australia and New Zealand. It assists ASEAN Member States (AMS) in meeting their commitments and realising the advantages offered by the Agreement establishing the ASEAN-Australia-New Zealand Free Trade Area, or AANZFTA, and the Regional Comprehensive Economic Partnership, or RCEP.

Through the AANZFTA Implementation Support Program (AISP) and the RCEP Implementation Support Program (RISP), RT4D provides tailored support to enhance the capabilities of ASEAN Member States by strengthening skills, building networks, facilitating policy options and ensuring that trade benefits everyone, including Micro, Small and Medium Enterprises (MSMEs), women and people with disability.

Also operating under RT4D is the Trade and Gender Equality Incubator (TGEI), an initiative funded by the Australian Government. The incubator tests ideas and methods, drawing on promising examples, that integrate gender in trade policy, technical cooperation, and development programming.

The Governments of Australia and New Zealand have committed up to AUD 53.3 million to fund RT4D from 2020-21 to 2027-28.

3 Scope

The following information is provided for bidders' assistance:

The Regional Trade for Development Facility (RT4D) is seeking a **consultancy firm/ consortium partner** (hereafter "the Consultant") to **manage and deliver both technical and event organisation services** for a project approved under the Regional Comprehensive Economic Partnership (RCEP) Implementation Support Program (RISP). Under the scope of services set in the ToR, the Consultant will manage the delivery of the following project:

- Project Name: Strengthening Stakeholder Capacity for Compliance with Updated SPS Regulations in Lao PDR
- Project Proponent: Department of Planning and Cooperation, Ministry of Agriculture and Environment

The Project Design will inform the implementation of this project.

The delivery will be guided by standard RT4D processes and template and be subject to comments, amendments, and approval from RT4D Team, the Project Proponent and Australia's Department of Foreign Affairs and Trade (DFAT).

Working closely with the RT4D team and the Project Proponent team, the Consultant is expected to deliver the outlined deliverables in line with the work plan and timeline below.

The support from the selected Consultant will be undertaken over a continuous effective period of 8 calendar months from January to August 2027.

4 Contact Officer

The only person authorised by Tetra Tech International Development to communicate with respondents is Contact Person. Therefore, respondents cannot rely on communications with any other person. Any communication with the Contact Person should be in writing and addressed to the Contact Person.

The Contact Person is

Name: Sianong Phomkong

Title: Regional Manager

Email: procurement@regionaltrade4dev.org

5 Briefing and Site Visits

No briefing or site visit is required.

6 Submission Format

Respondents are requested to prepare the proposal as stated in the bid rules and submit the proposal in electronic format to procurement@regionaltrade4dev.org. Please also copy to sianong.phomkong@regionaltrade4dev.org and phonevilay.vongxay@regionaltrade4dev.org

7 Submission Lodgement

The Closing Time for submitting a proposal is **6 December 2026 at 11.59** PM (ICT)**.**

The provider should submit Technical and Financial submissions in alignment with the templates provided in Part D. Submissions should be sent to procurement@regionaltrade4dev.org and copy sianong.phomkong@regionaltrade4dev.org and phonevilay.vongxay@regionaltrade4dev.org

8 Last Queries Date

If there are parts of the document that respondents do not understand, respondents should contact the nominated Contact Officer detailed in the bid document prior to the last queries date.

The Last Queries Date is **20 November 2026 at 11.59 PM (ICT).**

9 Document Structure

This Request for Proposal consists of four parts:

Part A – Invitation - a brief background and general information concerning the request for proposal process and Proposal Bid Rules

Part B - Requirements and Specifications

Part C - Contract Terms and Conditions - the contract requirements including a draft copy of the indicative terms of any contract that may ultimately be entered into for the project requirements.

Part D - Response Schedule – Your response to the Proposal

10 Evaluation Process

10.1 Proposals will be evaluated for full compliance with any mandatory requirements identified in the Invitation and Bid Rules and Statement of Requirement and/or Specifications.

10.2 Respondents are reminded that any requirements identified as mandatory are considered to be of fundamental importance to the satisfactory delivery of the goods and/or service, and a fully compliant response is required.

10.3 Tetra Tech International Development reserves the right to short-list a limited number of respondents, based on its initial value-for-money assessment, and continue detailed evaluation of this smaller group of respondents to the exclusion of all others.

10.4 If Tetra Tech International Development chooses to include a shortlisting stage in its evaluation process, Tetra Tech International Development is not, at any time required to notify respondents or any other person or organisation interested in submitting a proposal.

10.5 There are occasions when a secondary evaluation process is required. Tetra Tech International Development may request presentations by respondents, where appropriate, of the bid but need not make the same request of all respondents.

This may occur as a part of the original plan or be necessary to differentiate between short listed submissions.

A secondary process may include, but not be limited to:

- Presentation of the intended project / methodology;
- Clarification of particular aspects of the submission;
- Additional information on some aspect of the proposal;
- Responses to additional requirements; or
- Negotiations on personnel, project delivery, milestones and price.

Short listed suppliers will be notified of the secondary process.

11 Evaluation Criteria

Respondents will be evaluated against the following general criteria:

A. Technical Soundness Considerations

Interested organisations should provide a technical proposal detailing their capabilities in supporting the RT4D Team in **delivering both technical and event organisation services** for the project **"Implementing Consultant – *Strengthening Stakeholder Capacity for Compliance with Updated SPS Regulations in Lao PDR*".**

To ensure the above can be effectively managed and completed in alignment with this TOR, it is recommended that interested organisations have:

- **Qualified and Experienced Technical Team:** Availability of a suitably qualified and experienced multidisciplinary team with relevant expertise in SPS, agricultural trade, plant health, animal health/livestock and fisheries, food safety, regulatory implementation and institutional capacity development. The team should include specialists with demonstrated experience working with government agencies and technical officials in relevant sectors.
- **Knowledge of SPS Frameworks and International Requirements:** Strong understanding of the WTO SPS Agreement, relevant international standards and guidance (including IPPC, WOAH and Codex Alimentarius, as applicable), RCEP-related SPS commitments and relevant national SPS laws, regulations and institutional arrangements in Lao PDR.
- **Experience in Reviewing and Strengthening Technical Procedures:** Demonstrated experience reviewing and improving regulatory frameworks, SOPs, inspection manuals, checklists, certification and permit procedures, sampling protocols and other operational guidance, with the ability to identify implementation gaps and develop practical, user-friendly tools suited to government operations.
- **Institutional Coordination and Stakeholder Engagement:** Proven ability to facilitate technical consultations and coordination among government institutions, particularly MAE/DPC, DOA, DOLF, MOH/FDD, MOIC and other relevant agencies, including clarifying operational responsibilities, referral pathways and cross-agency interfaces while respecting existing institutional mandates.

- **Training and Capacity Development Expertise:** Demonstrated experience designing and delivering technical training, Training of Trainers (ToT) programmes and competency-based learning for government officials, including the development of training curricula, practical exercises, case studies and appropriate methods for assessing participants' technical competency.
- **Practical SPS Inspection and Frontline Coaching Experience:** Relevant experience supporting hands-on technical coaching, inspection and document-review processes, commodity identification, sampling and laboratory referrals, risk-based decision-making, certification and permit procedures, and the practical application of SPS procedures at border checkpoints or other operational settings.
- **Private-Sector Engagement and Business Capacity Building:** Experience designing and facilitating practical SPS awareness and capacity-building activities for agricultural MSMEs, traders, producers, cooperatives and other private-sector stakeholders, with the ability to translate technical SPS requirements into accessible business-facing guidance and practical compliance tools.
- **GEDSI and Inclusive Engagement Expertise:** Demonstrated understanding and experience integrating gender equality, disability and social inclusion (GEDSI) into technical assistance and capacity-building activities, including inclusive participant selection, engagement with women-led businesses and organisations of persons with disabilities, accessible materials, reasonable accommodation and identification of barriers affecting smaller and less visible enterprises.
- **Monitoring, Evaluation and Learning (MEL) and Results Documentation:** Ability to develop and apply practical approaches for assessing training outcomes, documenting competency improvements, capturing frontline application cases, collecting private-sector feedback and consolidating evidence against the project's three intended outcomes.
- **Event Planning and Logistical Coordination:** Proven capacity to organise and manage multi-stakeholder technical consultations, national training programmes, provincial workshops and national results-sharing events, including venue arrangements, participant mobilisation, travel and accommodation coordination, interpretation, training materials, accessibility requirements and event documentation.
- **Project Management and Multi-Location Delivery:** Demonstrated ability to manage multiple interrelated activities within an agreed timeframe, coordinate technical experts and government counterparts, undertake provincial missions and checkpoint coaching, manage logistical and operational risks, and ensure timely delivery of quality outputs within the approved budget.
- **Quality Assurance, Reporting and Sustainability:** Strong technical writing, analytical and reporting skills, with the ability to produce high-quality inception reports, technical assessments, strengthened SPS procedures, training materials, workshop reports and final recommendations. The organisation should also demonstrate an understanding of institutional ownership, knowledge transfer and practical sustainability arrangements to support continued use of project materials and resource-person capacity beyond the project period.
- **Knowledge of the Lao PDR Institutional and Operating Context:** Demonstrated understanding of the Lao PDR agricultural sector, SPS regulatory environment, government institutional structures and relevant national policies and strategies. Experience working with MAE departments, provincial agricultural authorities and other relevant government institutions would be an advantage, particularly in navigating institutional coordination, technical consultation and implementation arrangements at central and provincial levels.
- **Technical Adaptation and Practical Problem-Solving:** Ability to translate international SPS requirements and technical recommendations into practical, context-appropriate solutions that can be implemented within existing institutional mandates, staffing and resource constraints. The organisation should demonstrate experience adapting technical materials to different levels of government capacity and business needs, identifying feasible solutions to operational challenges, and ensuring that proposed improvements are practical, proportionate and sustainable.

B. Value for Money Considerations

Proposals to deliver this project should adhere to DFAT's Value for Money Principles, outlined below.

Achieving value for money is a critical consideration for the achievement of DFAT's strategic objectives. It is a requirement under the Public Governance, Performance and Accountability Act (2013) and the Commonwealth Procurement Rules. Building on these requirements DFAT has developed eight Value for Money Principles to guide decision making and maximise the impact of its investments. DFAT's website includes a detailed description of VfM indicators (outlined in the table below). We expect all our delivery partners to give effect to these principles and value for money performance is measured in DFAT's Aid Performance Framework.

Economy	Efficiency	Effectiveness	Ethics
1. Cost consciousness 2. Encouraging competition	3. Evidence based decision making 4. Proportionality	5. Performance and Risk Management 6. Results Focus 7. Experimentation and innovation	8. Accountability and transparency

Bidders should note that the RT4D Facility refers to DFAT's Aid Adviser Remuneration Framework to estimate the cost of contracting international advisers for the delivery of projects and activities.

Respondents shall provide supporting information to enable these criteria to be assessed, by completing every section of the request for proposal response.

12 Commonwealth Procurement Rules and PGPA Act

Respondents should be aware that the Commonwealth Procurement Rules ('CPRs') and the *Public Governance Performance and Accountability Act Rules 2013* (Cth) ('PGPA Act') as amended from time to time, apply to this RFP. The CPRs are available at: Commonwealth Procurement Rules | Department of Finance.

The PGPA Act is available at: Home Page - Federal Register of Legislation.

13 Indigenous Procurement Policy

It is Commonwealth policy and therefore Tetra Tech International Development policy, to stimulate Indigenous entrepreneurship and business development, providing Indigenous Australians with more opportunities to participate in the economy.

Respondents should note that the Indigenous Procurement Policy does not apply to this procurement.

However, in completing Part D, Response, Respondents are encouraged to provide information on how their organisation or quote stimulates Indigenous entrepreneurship and business development, providing Indigenous Australians with more opportunities to participate in the economy.

Purchases from an Indigenous enterprise may be in the form of engagement of an Indigenous enterprise as a subcontractor, and / or use of Indigenous suppliers in the Respondent's supply chain.

Part B – Scope of Services

Please refer to the attached Terms of Reference for detailed Scope of Services.

Part C – Draft Conditions of Contract

Please refer to the attached Services Agreement template.

Part D - Supplier's Response Form

(to be completed in full and returned by the supplier by the closing time and date)

Supplier Details

- I/We hereby offer to supply to Tetra Tech International Development the Goods/Services (specified in this RFP for Implementation Consultant for "Strengthening Stakeholder Capacity for Compliance with Updated SPS Regulations in Lao PDR") in accordance with the Conditions of Proposal, the attached draft Conditions of Contract and the following Addenda (if any) issued by Tetra Tech International Development.

PROCUREMENT DETAILS

Response Against Evaluation Criteria

Component	Score
Part A – Response to Technical Component	
A.1 Approach and Methodology - Outline approach to completing the stated scope of services. The approach should include: • A brief discussion indicating your understanding of project requirements. • A description of the methodological approach to achieving the project objectives and completing project deliverables. This may include an analysis of key issues, analytical strategies that will underlie the approach, specific tools or techniques that will be employed, and practical discussion of methodological limitations.	**20**
A.2 Project Plan and Risk Management – Please provide the following: • A project plan that specifies deliverables, tasks and timelines in line with the Project Work Plan section of the ToR. • Identify your approach to mitigating the project risks outlined in the Risk Management and Safeguards section of the ToR. • Indicate how the project will be monitored and reported in line with the Monitoring, Evaluation & Learning and REporting and Program Management section of the ToR to ensure it is delivered in terms of quality, timeliness and cost. • Indicate the level of support that will be required from the RT4D Facility to complete the project.	**20**
A.3 Organisational Capabilities and Experience – Please specify the following: • Outline general organisational capability that is likely to affect performance of project in line with ToR requirements (e.g. size of the organisation, in-house expertise, strength of project management support, networks, etc.). • Describe past experience in undertaking similar work – referring to criteria outlined in **section 11 of this RFP** – and provide brief summaries of relevant projects undertaken. • Explain whether any work would be subcontracted, to whom, how much percentage of the work, the rationale for such, and the roles of the proposed sub-contractors.	**20**
A.4 Project Team and Resourcing – Describe approach to staffing in line with ToR requirements including details of all proposed experts and their role in the delivery of the required services. This should include: • Key members of the project team, including their CVs, and demonstrate their skills and expertise essential to the delivery of this project—as specified in **section 11 of this RFP**. • Roles, responsibilities, and level of participation of the project team members. • An uncosted resource plan proposing the number of person days you expect each team member to undertake in delivering this project.	**20**
TOTAL – Technical Proposal	**80**
Part B – Response to Financial Component	

Using template provided, complete a Financial Proposal for the delivery of the scope of services in alignment with RT4D Value for Money Principles. The Financial Proposal should specify all direct and indirect costs for undertaking the project, including: • Professional services fees for completing all deliverables in accordance with the uncosted resource plan. • Project costs for experts and participants such as reimbursable expenses for airfare, other travel costs and daily subsistence allowance for workshops, meetings, and all other agreed activities will be based on actual cost • Management and/or operational fees (if any), which include all costs incurred by the person/entity/company for internal coordination, communication, travels and any other associated project management cost; • Applicable taxes such as VAT, GST, PPN.	**20**
TOTAL – Financial Proposal	**20**
GRAND TOTAL – Evaluation Criteria	**100**

Insurance	
Provide details of each insurance policy relevant to Tetra Tech International Development's Requirement.	

Compliance with Proposed Contract	
Does Your Proposal comply with all terms of the proposed Contract?	☐ Yes ☐ No
If Your Proposal does not comply with some or all of the terms of the contract You must provide reasons for the partial compliance or non-compliance for each clause below.	
Contract Clause No.	Explanation/comment

References	
Please provide up to three references that may be contacted in relation to Your Proposal
